

Swiss Institute of
Bioinformatics

SINGLE-CELL TRANSCRIPTOMICS WITH R

Post-course Information

Trainers and Helper

March 18-20 2026

sc-best-practices.org

Exam

To obtain ECTS / to test yourself

Deadline: Thursday, March 26th 23:59

<https://forms.office.com/e/ug3ybx1wCY>

Course material

All material will stay online.

Cloud will be deleted tomorrow morning **9:55 am**, so please copy your data to your preferred location.

GitHub: <https://github.com/sib-swiss/single-cell-r-training/>

Feedback for the course

- Email from the training manager
- Please provide feedback by next week
- <https://forms.office.com/e/e7TBFBn7yh>
- Certificates will be sent after maximum feedback received

Upcoming courses

sib.swiss/training/upcoming-training-courses

[Introduction to Spatial Transcriptomics Data Analysis](#)

[Introduction to R Shiny](#)

[Introduction to Sequencing Data Analysis](#)

[Introduction to Metagenomics Data Analysis of Microbial Communities](#)

[Docker and Singularity for Reproducible Research: Getting Started with Containers](#)

[Make Your Research FAIRer with Quarto, GitHub and Zenodo](#)
